Holt, L. Emmett, Jr. (see Josephs, Hugh W.) 84
Humphreys, Stewart (see Wintrobe, Maxwell, M.) 141
Hyper- and hypothyroidism, The relationship between serum cholesterol and total body cholesterol in experimental 175

Jones, G. E. Seegar and R. W. Te Linde: An evaluation of progesterone therapy in the treatment of endometrial hyperplasia 282
Josephs, Hugh W.: Factors influencing the level of vitamin A in the blood of rats .. 253
Josephs, Hugh W.: Studies in vitamin A. Influence of vitamin A on serum lipids of normal and deficient rats 265
Josephs, Hugh W., L. Emmett Holt, Jr., Herbert C. Tidwell and Charlotte Kajdi: The influence of dietary fat upon the excretion of urobilin 84

Kaiser, Irwin H.: The specificity of periarterial fibrosis of the spleen in disseminated lupus erythematosus 31
Kajdi, Charlotte (see Josephs, Hugh W.) 84

Levy, Dexter S. (see Scherlis, Sidney) 24
Lilienthal, J. L., Jr. (see Harvey, A. M.) 163
Longmire, William P. (see Price, Philip B.) 51
Lupus erythematosus, disseminated, The specificity of periarterial fibrosis of the spleen in 31

Miller, Mitchell H. (see Wintrobe, Maxwell M.) 141
Myocardial necroses in rats on a potassium low diet prevented by thiamine deficiency 235

Najjar, Victor (see Wintrobe, Maxwell M.) 141

Periarteritis nodosa, The rôle of hypersensitivity in 123
Periarteritis nodosa, Additional evidence of the rôle of hypersensitivity in the etiology of 375
Pickrell, Kenneth L.: A sulfonamide film for use as a surgical dressing. Preliminary report 304
Pituitary extracts, posterior, Ultracentrifugation of the antidiuretic, chloruretic, and pressor factors of 18
Plasma volume determinations, The use of T-1824 in 51
Price, Philip B. and William P. Longmire: The use of T-1824 in plasma volume determinations 51

Ravitch, Mark M. and John W. Chambers: Spirochaetal survival in frozen plasma .. 299
Rich, Arnold R.: The rôle of hypersensitivity in periarteritis nodosa 123
Rich, Arnold R.: Additional evidence of the rôle of hypersensitivity in the etiology of periarteritis nodosa 375
Rich, Arnold R. and R. H. Follis, Jr.: The effect of low oxygen tension upon the development of experimental tuberculosis 345
Rosenfeld, Morris (see Ham, George C.) 18

Sarcoid, The serum proteins in. Electrophoretic studies 364
Scott, Virgil: Note on absence of syphilitic reagin and antigenic substance in urine .. 242
Scherlis, Sidney and Dexter S. Levy: Investigation into the mechanism of the Weltmann serum coagulation reaction. A preliminary report 24
Shumacker, Harris B., Jr. (see Fleischmann, Walter) 175

Shumacker, Harris B., Jr.: Sympathetic denervation of the feet and legs occurring spontaneously or as a result of disease. A preliminary report 1
Spirochaetal survival in frozen plasma 299
Stafford, Edward S. (see Davis John S.) 191
Stein, Harold J. (see Wintrobe, Maxwell M.) 141
Sulfonamides, Comparative activity of, against coliform bacteria in the intestines of mice 213
Sulfonamide film for use as a surgical dressing. Preliminary report 304
Sympathetic denervation of the feet and legs occurring spontaneously or as a result of disease. A preliminary report 1
Syphilitic reagin and antigenic substance, Note on absence of, in urine 242

Te Linde, R. W. (see Jones, G. E. Seegar) 282
Tetany, Observations on the nature of. The effect of adrenaline 163
Thiamine deficiency in swine, A study of. Together with a comparison of methods of assay 141
Tidwell, Herbert C. (see Josephs, Hugh W.) 84
Tuberculosis, The effect of low oxygen tension upon the development of experimental 345

Urobilin, The influence of dietary fat upon the excretion of 84
U. S. Army General Hospitals 18 and 118 organized at the Johns Hopkins Hospital .. 112

Vandegrift, William B.: A dehydrating fixative for general use, including a description of techniques and stains for paraffin and celloidin sections 96
Vitamin A, Factors influencing the level of, in the blood of rats 253
Vitamin A, Studies in. Influence of vitamin A on serum lipids of normal and deficient rats 265

Walzl, E. M. (see Woolsey, C. N.) 315
Weltmann serum coagulation reaction, Investigation into the mechanism of 24
White, Harold J.: Comparative activity of sulfonamides against coliform bacteria in the intestines of mice 213
Wintrobe, Maxwell M., Harold J. Stein, Mitchell H. Miller, Richard H. Follis, Jr., Victor Najjar and Stewart Humphreys: A study of thiamine deficiency in swine. Together with a comparison of methods of assay 141
Woolsey, C. N. and E. M. Walzl: Topical projection of nerve fibers from local regions of the cochlea to the cerebral cortex of the cat 315
